## **NEW PRODUCT RELEASE: BIODEGRADABLE BLOCK POLYMERS**

NOF CORPORATION's latest products, biodegradable block polymers (SUNBRIGHT<sup>®</sup> ME-LA, ME-DL and ME-CL series) are now available.

SUNBRIGHT<sup>®</sup> ME-LA, ME-DL and ME-CL series are manufactured using our proprietary polymerization process, and contain extremely low impurities. Some of the advantages of NOF's SUNBRIGHT<sup>®</sup> ME-LA, ME-DL and ME -CL series are:

- Controlled molecular weight of PEG unit and biodegradable polymer unit;
- No use of metal catalysts;
- Different combinations of molecular weights, structures, functional groups; and
- Batch-to-batch consistency.

Here are some examples of applications:

- Polymer micelles
- Polymersomes
- Chemical modifications of drugs
- Biodegradable medical device (cell adhesion, surface coating, hydrogels)

Please contact our regional offices for product details and questions.
