NOVEMBER 2021

NOF EXHIBITS AT MEDICA 2021, Düsseldorf, Germany (NOVEMBER 15 - 18)

NOF CORPORATION will exhibit NOF's additives for diagnostics at Medica 2021 at Düsseldorf Exhibition Centre.

Please come and see us in order to get new information at booth hall 1D17.

<Additives for Diagnostics>

Our product, BIOLIPIDURE® series (MPC※ polymer) have the following features as diagnostic reagents for various kinds of immunoassay such as lateral flow tests, latex agglutination, ELISA and chemical luminescence.

- Enhancement of sensitivity and accuracy
- Suppression of non-specific adsorption
- Stabilization of antibodies and enzymes
- NO lot-to-lot variations and NO biohazardous risk

※MPC : 2-methacryloyloxyethylphosphorylcholine

<New application data related to COVID-19>

New data supporting the enhancement of sensitivity by using BIOLIPIDURE® on SARS-CoV-2 antibody detection kits will be introduced at our booth#2753.

<New Products>

1) LIPIDURE®-GD series, new additives for PCR

- For higher sensitivity
- For better detection
- For higher stability of the master mix

2) EVERBRITE® series, Activated PEGs for diagnostics

- Suppression of non-specific adsorption on magnetic beads and microplates by using mono-functional linear PEGs
- Stabilization of enzymes by using mono-functional linear PEGs
- Linker for immobilized antibody, enzyme-labeled antibody and antigen by using hetero-type activated PEGs
- Accumulation of secondary antibodies by using multi-arm PEGs

If you are interested in our technologies/products, please visit our booth #2753 during the conference or contact our regional office below.
