

# Everyday Products Created from NOF's Products

## The World Created through NOF's Technology

When NOF began operations in 1937 as an oleochemical manufacturer, we offered only a limited range of products. Later, in response to changes in industrial structures and global needs, we expanded our operations into the area of petrochemicals from the 1970s. Furthermore, by pursuing the functions of the materials that NOF possesses, we have developed a wide range of customer segments, including biocompatible materials and DDS. As a result, NOF materials are used in a wide variety of products that you see in your daily life, from daily necessities such as food, pharmaceuticals, and cosmetics to industrial products such as automobiles, home appliances, construction products, and electricity-related products.

Security device

Photocopiers

Automobiles

Frozen foods

Pills

Eye drops

Homes / Buildings

Ships  
(yachts and boats)

Cosmetics

Contact lenses

Proteins /  
Supplements

Diagnostic  
pharmaceuticals

Vaccine  
formulation

Wireless electronic detonators

High-voltage  
wires
