Under the corporate philosophy of “contributing to humanity and society as a corporate group that creates new value through the power of chemistry, from the biosphere to outer space,” the NOF Group (the “Group”) aims to realize stable and sustainable growth and development, as well as to continue to be a company valued by all kinds of stakeholders through fulfilling its corporate social responsibility as a member of our society, such as by protecting the natural environment and securing health and safety, in addition to compliance.

In order to respond precisely to changes in the business environment and the intensifying competition between companies, the Group strives to speed up management decisions and, from the perspective of securing transparency and improving accountability, recognizes that the strengthening of corporate governance is an important issue, and endeavors to secure the effectiveness thereof.

[Reasons for Not Implementing the Principles of the Corporate Governance Code]

(Applied Code)

The information in this report is based on the revised code issued in June 2021. The Company implements all the principles of the Corporate Governance Code.

[Disclosure Based on the Principles of the Corporate Governance Code] Updated

[Principle 1.4 So-called Strategic Shareholdings]

(Policy on Strategic Shareholdings)

In order to improve the Company’s corporate value over the mid- to long-term by maintaining and enforcing smooth business operations and business relationships, the Company holds shares for strategic purposes only when it is deemed reasonable, after comprehensively considering factors such as risks of holding and the capital cost. Under the basic policy of reducing strategic shareholdings for which the significance of holding is deemed to have diminished, each year, strategic shareholdings shall be individually examined by the Board of Directors, who will review the appropriateness of continuing the holding. As a result of the above review, the Company sold and reduced a portion of its strategic shareholdings in fiscal 2023. The Company will promote the reduction, aiming for a ratio of consolidated cross-shareholdings to net assets of 15% or less by the end of fiscal 2025.

(Standards regarding Exercising of Voting Rights pertaining to Strategic Shareholdings)

Regarding the exercising of voting rights pertaining to strategic shareholdings, the Company shall exercise its voting rights, based on the premise that it would contribute to the Company’s interests, after comprehensively considering whether each proposal contributes to the sustainable growth and mid- to long-term improvement of the investee company’s corporate value, whether it would not damage shareholder value,

etc. The Company shall review proposals submitted at the General Meeting of Shareholders, and make the final judgment of approval or disapproval after examining each proposal individually for proposals that demonstrate the following.

- (1) A proposal deemed to be problematic from the standpoint of securing the company's corporate governance function
- (2) A proposal deemed to possibly damage shareholder value
- (3) A proposal on a dividend payout ratio which is deemed to be continuously low without sufficient explanation, or which is extremely high and may potentially have a negative impact on financial soundness

[Supplementary Principle 1.4]

(Response to Intentions of Holders of Strategic Shares to Sell the Company's Shares, etc.)

- (1) If a shareholder who holds the Company's shares as strategic shareholdings indicates his/her intention to sell the Company's shares, etc., the Company shall not prevent the sale of the strategic shares by, for instance, implying a possible reduction of business transaction.
- (2) The Company shall not engage in any transaction with a holder of the Company's shares as strategic shareholdings that would damage the interests of the companies or the common interests of their shareholders by, for instance, continuing the transaction without adequately examining the underlying economic rationale.

[Principle 1.7 Related Party Transactions]

A transaction between the Company and its Directors that involves a conflict of interest or is a self-dealing transaction requires approval by the Board of Directors, as stated in the "Rules of the Board of Directors." As the Company does not currently have a parent company or a major shareholder who holds 10% or more of the Company's shares, the procedures for approval when conducting a transaction with such a shareholder has not been stipulated.

The Group recognizes that matters concerning sustainability are our corporate social responsibility, and has established a system in which all Directors, including Directors who concurrently serve as Audit and Supervisory Committee Members, participate in deliberations at the Sustainability Committee, which is chaired by the President and Chief Executive Officer.

After discussion at Strategic Meetings, which consist of Directors who concurrently serve as Operating Officers and Operating Officers with a title, and the Sustainability Committee, specific matters concerning sustainability have been identified as items of materiality (important issues) related to sustainability and

approved at Board of Directors meetings. Furthermore, the degree of importance is visualized by mapping materiality (important issues) on two axes: the degree of impact on society and the degree of impact on the Company. The lead divisions and divisions tasked with handling the materialities (important issues) draft KPIs and numerical targets for each item, carry out their respective activities, and report the status and results of such activities to the Sustainability Committee. The Sustainability Committee evaluates items of materiality (important issues) and discusses KPIs, targets, and details of initiatives for important issues in order to aim for the continuous improvement of activity levels, and the results of deliberations by the Committee are reconfirmed by the Board of Directors for appropriate supervision.

Response to Climate Change

In response to climate change, which is an urgent issue shared by the entire world, the Group has set the reduction of greenhouse gas emissions as one of the goals of its responsible care (RC) activities, and to respond to the carbon neutrality by 2050 declared by the government in October 2020 and its new targets to reduce greenhouse gas emissions announced in April 2021, the Group announced its support for the Task Force on Climate-related Financial Disclosures (TCFD) recommendations in April 2022, and set a goal for the Group to achieve carbon neutrality by 2050.

The TCFD recommendations call for conducting a scenario analysis to understand how risks and opportunities arising from climate change will affect the financial performance of companies. Based on the 1.5°C and 2°C scenarios, which could lead to a transition to a decarbonated society, and the 4°C scenario, in which climate change progresses, the Group has identified transition and physical risks and opportunities pose by climate change.

We plan the promotion of measures toward reducing greenhouse gas emissions in response to tighter domestic and international regulations that we identified as transition risks under 1.5 °C and 2°C scenarios.

Furthermore, we are considering switching from petrochemical-based raw materials to plant-based raw materials, including the use of biomass chemicals, in response to a sharp rise in raw material prices due to a decrease in the supply of petroleum, etc. and an increase in demand for biofuels.

To address the impact of torrential rains and typhoons as a result of climate change on production sites and supply chains, which is identified as a physical risk under the 4°C scenario, we have formulated a business continuity plan (BCP) in addition to strengthening disaster prevention measures for production sites.

We recognize that opportunities will expand the need for clean tech-related products that contribute to climate change mitigation and adaption.

For information disclosure in line with TCFD recommendations, please refer to “Response to climate change (TCFD)” in “Sustainability” on the Company’s website. (<https://www.nof.co.jp/english/csr>)

Shingo Unami		○	Until April 2011, Mr. Shingo Unami, an Outside Director, was an executive of Mizuho Trust & Banking Co., Ltd., which is a bank that the Company transacts with.	<p>[Reasons for Election] Mr. Shingo Unami has abundant experience and advanced insight in the financial industry, a broad range of experience and knowledge regarding corporate management, and expresses appropriate opinions on all aspects of the management from a fair and objective standpoint. He serves as the chairman of the Compensation Committee and a member of the Nomination Committee, and also attends meetings of the Sustainability Committee. He has engaged in the deliberations, etc. of these committees. The Company expects him to continue fulfilling the role of conducting appropriate oversight, etc. over business execution and providing advice to management, based on his professional viewpoint, including his advanced knowledge on human resources, labor, finance and accounting. Therefore, the Company has elected him.</p> <p>[Reasons for Designation as Independent Officer] Mr. Unami formerly had an executive role at Mizuho Trust & Banking Co., Ltd., with which the Company engages in transactions. However, as of the fiscal year ended March 31, 2024, the Company's total loans from this financial institution account for 1.1% of the Company's total assets, which is a low percentage. Furthermore, the Company has ongoing transactions with multiple financial institutions and is not dependent on any particular financial institution. For these reasons, the influence of the business relationship between Mizuho Trust & Banking Co., Ltd. and the Company is not equivalent to that of the relationship with a subsidiary or an affiliate, the standard for consideration as a "major business partner" with regard to the decision-making of the Company's business execution. For the above reasons, the Company has deemed that there is no risk of Mr. Unami having a conflict of interest with general shareholders, and has designated him as an Independent Officer.</p>

--	-------------

Disclosure of Policy on Determining Remuneration Amounts and Calculation Methods

The compensation of Directors excluding Audit and Supervisory Committee Members shall be based on the Company's Corporate Philosophy, promote sustained growth and improvement of corporate value in the medium- to long- term, and reward business performance, etc. through appropriate compensation levels. Decisions on compensation shall be made under a policy of going through a fair and transparent process, wherein compensation consists of monthly compensation, bonuses and stock compensation. The proportion of incentive compensation that is linked to short-term or mid- to long-term performance is set to about 40% (a standard proportion). (Outside Directors are paid compensation that is not linked to performance indicators.) In addition, the Compensation Committee deliberates on compensation systems, compensation levels, and individual compensation, etc.

1. Fixed compensation

After undergoing deliberation by the Compensation Committee, the calculation method, etc. for fixed compensation of Directors was resolved at the Board of Directors meeting. Regarding decisions on the specific details of the fixed compensation amount of individual Directors excluding Audit and Supervisory Committee Members, they are resolved at a Board of Directors meeting, after undergoing deliberation by the Compensation Committee.

2. Performance-linked compensation

(Bonuses)

After undergoing deliberation by the Compensation Committee, the calculation method, etc. for bonuses of Directors excluding Audit and Supervisory Committee Members and Outside Directors was resolved at a Board of Directors meeting. The calculation method of the said bonuses is based on consolidated operating income, an important indicator related to the Group's business performance evaluation, and the bonuses are calculated by multiplying a predetermined coefficient determined for each position by a base amount. The Compensation Committee verifies the said calculation method and the amount paid to Directors excluding Audit and Supervisory Committee Members (excluding Outside Directors) in each term.

(ESG indicators-linked compensation)

A method to calculate a portion of compensation (monthly compensation) using achievement level of ESG indicators, etc. for Directors excluding Audit and Supervisory Committee Members and Outside Directors was resolved at a Board of Directors meeting. ESG indicators are based on materiality (important issues), which are important indicators identified by the Group, and their details, achievement levels, and other matters are deliberated by the Compensation Committee.

(Stock compensation)

Through a resolution at an Annual General Meeting of Shareholders, the Company introduced a performance-linked stock compensation plan, the "Board Benefit Trust" (BBT) for Directors who concurrently serve as Operating Officers and Operating Officers with a title (excluding Outside Directors and Directors who are Audit and Supervisory Committee Members; hereinafter collectively "Directors, etc.").

For each fiscal year, the Directors, etc. shall be awarded points, the number of which is to be decided taking into account their respective positions, achievement level of performance targets, etc. based on the Officer Stock Distribution Rules. Each point awarded to the Directors, etc. shall be converted into one (1) share of the Company's common stock at the time of the distribution of the Company's shares, etc. (in the event of a stock split, stock allotment without contribution, or stock consolidation, etc., reasonable adjustments will be made to the maximum number of points, the number of points awarded or the conversion ratio, according to the said ratio, etc. of the event). The number of points held by a Director, etc., which will be used as the basis for the distribution of the Company's shares, etc., shall be in principle, the number of points awarded to the said Director, etc. by the time of his/her retirement.

After undergoing deliberation by the Compensation Committee, the Officer Stock Distribution Rules, which stipulate the said calculation method, etc. after taking into account the respective positions, achievement level of performance targets, etc. of the Directors, etc., was resolved at a Board of Directors meeting.

- In addition, for specific issues such as compliance, risk management, RC and quality management, specialist committees have been set up to put a risk management system in place.
- The Company strives to strengthen the management checking function over the aforementioned execution system through oversight and audits conducted by the Audit and Supervisory Committee, a majority of which is independent Outside Directors.
- Regarding the Accounting Auditor, the Company has concluded an auditing agreement with Ernst & Young ShinNihon LLC, which conducts accounting audits of the Company.
