Title: [NEW PRODUCT RELEASE] POLYSORBATE 20 (GS)TM

Polysorbate 20(GS)TM is multi-compendial (NF, EP and JPE) and can be applied to various drugs as a multi-purpose surfactant, e.g., as a solubilizing agent for poorly hydrophilic drugs, as a stabilizing agent for injectable preparations for biologics such as vaccines, antibodies, cytokines and so on.

It is available from 1kg amber glass bottles(GMP) and 10kg stainless drums (GMP).

For more details, visit our web site at <http://www.dds-drug.com> or e-mail us at ddsinfo@nof.co.jp.
