NOF CORPORATION EXHIBITS AT 2015 PLASTEC SOUTH (NOVEMBER 18 – 19)

NOF CORPORATION is exhibiting at Plastec South held on November 18 and 19 at the Orange County Convention Center in Orlando, Florida (**booth # 117**).

We are presenting our latest products and technologies of Functional Chemicals and Polymers for automotive industries.

Some of the highlights presented are:

◆Anti-squeak Improver [MODIPER® A1401 Series](#):

MODIPER® A series is an innovative type graft copolymer, consisting of polyolefin as a main-chain and polyvinyl as a branch polymer, which is exclusively manufactured by NOF CORPORATION utilizing NOF's developed grafting technology. **MODIPER® A series** can improve the mechanical property, surface property, compatibility and other properties of thermoplastic resins.

◆Anti- Scratch Improver [NOF® -ALLOY KA832 & NOF® -ALLOY KA147](#)

NOF® -ALLOY KA series is a novel type scratchproof improver which is exclusively manufactured by NOF CORPORATION based on unique NOF radical grafting technology. **NOF® -ALLOY KA series** is especially designed for Polyolefins (PP, EVA, PE, etc), Thermoplastic Olefin Elastomers (TPO) and Thermoplastic Styrene Elastomers (TPS) drastically promotes its scratch proof property with no big impact on surface, mechanical and thermal properties and moldability.
